

Cancer Screening Continuous Quality Improvement Toolkit Bundle 3

Pathology and Screening results

Checking that your software recognises the results from Pathology and Screening providers will ensure your data audits and reminder lists are more accurate.

**Test names need to match exactly to be recognised.*

Faecal occult blood test (FOBT)

Results maybe received as a PDF if the patient has participated in the National Bowel Registry Program (these results will be manually entered).

CAT4

Northern Queensland Primary Health Network acknowledges the Aboriginal and Torres Strait Islander peoples as Australia's First Nation Peoples and the Traditional Custodians of this land. We respect their continued connection to land and sea, country, kin, and community. We also pay our respect to their Elders past, present, and emerging as the custodians of knowledge and lore.
